

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

# SCIENTIFIC BOOKS

## PASTEUR—THE HISTORY OF A MIND

By EMILE DUCLAUX. Translated by ERWIN F. SMITH and FLORENCE HEDGES, *Pathologists of the U. S. Department of Agriculture.*

This book is not only a critique of Pasteur. It is a contribution to biological history at a very important period in the development of science. 363 pages.

The W. B. Saunders Co., Philadelphia

## EDUCATIONAL SOCIOLOGY

By WILLIAM ESTABROOK CHANCELLOR, *Head of the Department of Political and Social Sciences, College of Wooster.*

The purpose of this text-book is to make a general introductory survey of the field of sociology with special reference to education. 422 pages.

The Century Company, New York

## VERTEBRATE ZOOLOGY

By HORATIO HACKETT NEWMAN, *Professor of Zoology and Embryology in the University of Chicago.*

This book is intended for use as a text-book in college courses in vertebrate zoology such as are required of premedical students, and other students who have had a course in general zoology. 442 pages. Price \$3.00.

The Macmillan Company, New York

## PHYSIOGRAPHY. (Third Edition)

By ROLLIN D. SALISBURY, *Head of the Department of Geology, in the University of Chicago.*

This volume is intended for students of normal school grade. The third edition has been revised throughout, and much of it has been rewritten. 675 pages.

The Henry Holt and Co.

## THE ORGANIZATION OF INDUSTRIAL AND SCIENTIFIC RESEARCH

By C. E. KENNETH MEERS, *Director of the Research Laboratory, Eastman Kodak Company, Rochester, N. Y.*

This book is intended as a contribution to the study of the best methods of organizing research for industrial purposes and of the conditions under which such work should be conducted. 175 pages.

The McGraw Hill Book Co., New York

## HUMAN PSYCHOLOGY

By HOWARD C. WARREN, *Professor of Psychology, Princeton University.*

A text-book based on the theory that mental life comprises the events which occur in the active give-and-take relations between organisms and environment. 460 pages.

The Houghton Mifflin Company, Boston

## APPLIED ECONOMIC BOTANY

By MELVILLE THURSTON COOK, PH.D., Rutgers College, New Brunswick, N. J.

The author has endeavored to make this work so flexible that it may be used in schools regardless to the amount of time devoted to the subject, or the available laboratory space and equipment. 261 pages.

J. B. Lippincott Company, Philadelphia

Advertisements of new books of interest to readers of the MONTHLY will be inserted on this page for \$1.00]

## THE NATURAL HISTORY OF SOUTH AFRICA

By F. W. FITZSIMONS, F.Z.S., F.R.M.S., &c., *Director, Port Elizabeth Museum.*

A popular and scientific series of books on the animals of South Africa. 4 volumes. \$6.00 per volume.

Longmans, Green & Company, London

## ELECTRIC OSCILLATIONS AND ELECTRIC WAVES

By GEORGE W. PIERCE, PH.D., *Professor of Physics in Harvard University.*

This book is designed to present a mathematical treatment of some of the fundamentals of the theory of electric oscillations and electric waves. 417 pages.

McGraw Hill Book Company, New York City

## INBREEDING AND OUTBREEDING

By EDWARD M. EAST, PH.D., *Harvard University, and DONALD F. JONES, SC.D., Connecticut Agricultural Station.*

Designed especially for the biologist, this work should be read by those who are interested in the far-reaching and fundamental application of the laws of heredity and the experiments that have been done in this subject. 285 pages.

J. B. Lippincott Company, Philadelphia

## SOUTH

By ERNEST SHACKLETON.

A graphic account of Shackleton's last expedition (1914-1917). There are chapters in this book of high adventure, strenuous days, supreme loyalty and generous self-sacrifice. 374 pages. 88 illustrations and diagrams.

The Macmillan Company, New York

## THE UNITY OF THE ORGANISM

By WILLIAM EMERSON RITTER, *Director of the Scripps Institution for Biological Research of the University of California.*

This book marks a distinctive step in the advance of biology from the laboratory-speculative point of view to a broader natural history outlook. 2 volumes. Price \$5.00.

Richard G. Badger, Boston, Mass.

## MIND AND CONDUCT

By HENRY RUTGERS MARSHALL, L.H.D., D.S.

An inquiry into the problems of mind and conduct by the author of "Instinct and Reason," "Pain and Pleasure and Aesthetics" and other well known volumes in the field of Psychology. 236 pages. Price \$1.75.

Charles Scribner's Sons, New York

## OPTIC PROJECTION

By HENRY PHELPS GAGE, PH.D. and SIMON HENRY GAGE, B.S.

Principles, installation and use of the magic lantern, opaque lantern projection microscope and moving picture machine. 700 pages, 400 illustrations. Price \$3.00.

The Comstock Publishing Company, Ithaca, N. Y.

## Publications of Carnegie Institution of Washington

The publications of the Institution now number over 350 volumes, the subjects including Anatomy, Archaeology, Astronomy, Botany, Chemistry, Economics and Sociology, Embryology, Experimental Evolution and Heredity, Engineering, Folk-Lore, Geology, History, International Law, Literature, Mathematics, Medicine, Nutrition, Philology, Physics, Zoology. Classified and descriptive lists will be sent postpaid on application.

### Botany and Related Subjects *In Press*

248. BRITTON, N. L. and N. N. ROSE. The Cactaceae. Descriptions and Illustrations of Plants of the Cactus Family. Quarto in 4 vols. Volume I will appear in June or July, 1919. It will be illustrated by 301 text-figures and 36 plates; of the latter, 28 are in colors.

286. WEAVER, JOHN E. The Ecological Relation of Roots. Octavo.

287. SPOEHR, H. E. The Carbohydrate Economy of Cacti. Octavo.

289. DOUGLAS, A. E. Climatic Cycles and Tree-growth. Octavo.

290. CLEMENTS, FREDERIC E. Plant Indicators: The Relation of Plant Communities to Conditions and Practices. Octavo.

297. MACDOUGAL, D. T. Hydration and Growth. Octavo. Orders for above publications may be made through book-sellers or sent directly to the Institution.

All communications should be addressed to

**CARNEGIE INSTITUTION OF WASHINGTON**  
WASHINGTON, D. C.

## Marine Biological Laboratory Woods Hole, Mass.

### INVESTIGATION

Entire Year

Facilities for research in Zoology, Embryology, Physiology and Botany. Seventy-six private laboratories, \$100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is \$50.00.

### INSTRUCTION

June 30 to August 10

Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, \$50. A lecture course on the Philosophical Aspects of Biology and Allied Sciences is also offered.

### SUPPLY DEPARTMENT

Open the Entire Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Price lists of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For price lists and all information regarding material, address

GEO. M. GRAY Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

# SCIENCE

**A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE**

FRIDAY, MAY 7, 1920

Multiplex Telephony and Telegraphy over Open-circuit Bare Wires laid in the Earth or Sea: Major General George O. Squier.

Research in the Psychology of Aviation during the Year 1919: Captain Harry M. Johnson.

General Biology and the Junior College: Professors Leonas L. Burlingame and Ernest G. Martin.

Francis C. Phillips: Professor Alexander Silverman.

Scientific Events:—

Bird-banding Work being taken over by the Biological Survey; The Pacific Coast Division of the American Association for the Advancement of Science; The Resignation of the Director of the Bureau of Mines; The Resignation of Professor E. L. Nichols from the Yale University Faculty; The Allegheny Observatory.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

Singing Sandes: Albert R. Ledoux. Modern Interpretation of Differentials: Professor Arthur S. Hathaway. Carbon Dioxide and Increased Crop Production: Professor Benjamin Harrow. Structural Blue in Snow: Dr. Jerome Alexander.

Scientific Books:—

Haskell on Graphic Charts: Dr. R. von Huhn.

Special articles:—

The Heredity of Susceptibility to a Transplantable Sarcoma of the Japanese Waltzing Mouse: Dr. C. C. Little.

The American Association of Petroleum Geologists.

The American Association for the Advancement of Science:— Minutes of the Executive Committee of the Council; Professor Burton E. Livingston.

Annual Subscription \$5.00

FRIDAY, MAY 14, 1920

The American Association for the Advancement of Science:— The Stimulation of Research after the War: Professor R. A. Harper.

James M. Macoun: Dr. Harlan I. Smith.

Scientific Events:—

The Anglo-American University Library for Central Europe; Publications for European Nations; Tables of the Motion of the Moon; The Director of the Bureau of Mines.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

The Aurora of March 22, 1920: Professor Joel Stebbins. The recent Auroras and Sun Spots: Professor E. D. Roe, Jr. Possible Connection between Sunspots and Earthquakes: Professor Dinsmore Alter. Some Micro-plankton from Salton Sea: Dr. W. E. Allen. Conditions in Hungary: Professor Jas. Lewis Howe. Journals for Prague: Professor Frederick S. Hammett.

Notes on Meteorology:—

The Supposed Recurrent Irregularities in the Annual March of Temperature: Dr. Charles F. Brooks.

Special Articles:—

The Siphon in Text-books: Dr. Harold C. Barker.

The American Association for the Advancement of Science:— Section E—Geology and Geography: Professor Rollin T. Chamberlin.

The American Geophysical Union: Dr. Harry O. Wood.

The National Academy of Sciences.

# SCIENCE PROGRESS

A QUARTERLY REVIEW OF SCIENTIFIC THOUGHT, WORK AND AFFAIRS

EDITED BY SIR RONALD ROSS, F.R.S., D.Sc., M.D., Etc.

SCIENCE PROGRESS owes its origin to an endeavor to found a scientific journal containing original papers and summaries of the present state of knowledge in all branches of science. The necessity for such a journal is to be found in the fact that, with the specialization which necessarily accompanies the modern development of scientific work and thought, it is increasingly difficult for even the professional man of science to keep in touch with the progress achieved and the trend of thought in subjects other than those in which his immediate interests lie. This difficulty is felt by teachers and students in schools and colleges, and by the general educated public interested in scientific questions. SCIENCE PROGRESS claims to have filled this want.

Published early in January, April, July, and October, by John Murray, 50a, Albemarle Street, London, W., England. Price of a single number is 6/- net. Annual subscription (including postage) 25/6.

## Important Recent Special Publications of the Philippine Bureau of Science

**SPECIES BLANCOANÆ:** A critical revision of the Philippine species of plants described by Blanco and by Llanos. By E. D. Merrill. 424 pages. Postpaid \$2.25.

**PHILIPPINE WATER SUPPLIES:** By G. W. Heise and A. S. Behrman. 218 pages and 19 plates. Postpaid \$1.75.

**AN INTERPRETATION OF RUMPHIUS'S HERBARIUM AMBOINENSE:** By E. D. Merrill. 596 pages and 2 maps. Postpaid \$3.00.

**The Philippine Journal of Science,** a monthly (no longer issued in sections), per year \$5.00.

A list of the publications of the Philippine Bureau of Science and a sample copy of the Philippine Journal of Science will be sent upon request.
